§ 171.1. Calculating the Amount of Time Required to Meet Satisfy Minimum Qualifications for Experience.

~~Unless otherwise provided in the class specification adopted by the board, when~~ When determining whether an applicant ~~has completed~~ satisfies the minimum amounts of time that may be required by the experience component in to satisfy the minimum qualifications for experience, as prescribed in the class specification for the class, the following shall apply:

(a) The time required shall have been in a full-time job or ~~work assignment~~ its part-time equivalent. A full-time job ~~or work assignment~~ is the maximum number of hours ~~an individual a person~~ can spend on a job without a requirement that ~~he/she he or she~~ be given overtime compensation or, where overtime is not applicable, the number of hours required for ~~an individual a person~~ a person to receive full-time pay for the applicable work period.

~~(b) An applicant must have the required calendar time unless the applicant worked two different jobs concurrently. the time spent on two different qualifying jobs worked concurrently shall be added together to determine the total amount of qualifying experience.~~

(b) When calculating part-time equivalent experience toward satisfying the minimum amounts of full-time experience, 173.33 hours of actual time worked equals one month. To determine the years and months worked, an appointing power may use either 52 weeks to equal one year or 4.35 to equal the number of weeks in one month, whichever calculation results in greater time worked. As an example, an applicant has three years of qualifying part-time work experience at 10 hours per week. The 52-weeks yearly calculation would be 3 years x 52 weeks x 10 hours = 1560/173.33 = 9.00 months. The 4.35-weeks monthly calculation would be 3 years equals 36 months x 10 hours x 4.35 weeks = 1566/173.33 = 9.03 months. Because the 4.35-weeks monthly calculation results in greater time worked, the 4.35-week monthly calculation must be used.

~~(c) To receive experience credit, the applicant's job responsibilities or duties must be performed for a definite and identifiable percentage of his or her working time. Experience which may have been gained as an occasional or incidental aspect of the applicant's job is not acceptable.~~

~~(b) (c) Where an applicant works in more than one job concurrently, the hours worked per week in each job shall be added together, if these hours relate to the same or substantially the same competencies if the experience gained in the jobs relates to the~~

Proposed Text
Classifications, Exams, and Selection Process

same or substantially the same requirements enumerated in the minimum qualifications. Calculating the total sum of the applicant's part-time equivalent experience toward satisfying the minimum amounts of full-time experience shall be in accordance with subdivision (b).

(d) To receive experience credit, the applicant's job responsibilities or duties must be performed on a routine basis, either daily, weekly, monthly, or certain times of the year. Experience which may have been gained as an occasional or incidental aspect of the applicant's job is not acceptable. **If the applicant is a state employee and the experience in question was gained in an out-of-class assignment, section 212 of the Board's regulations shall apply.**

~~(c) (d) Hours worked on the same job in excess of full-time (i.e., overtime hours) shall not be credited as additional time.~~

(e) Overtime hours worked on the same job for which the employee is entitled to pay for those extra hours worked under the federal Fair Labor and Standards Act (29 U.S.C.A § 201 et seq.) shall be credited as additional time.

~~(d) Less than full-time experience shall be credited based upon the percentage of full-time worked while employed less than full-time [e.g., half-time (50%) employment for six months equals three months of full-time experience].~~

~~(e) (f) An applicant shall receive credit for qualifying experience in a full-time or part-time job while enrolled in and attending a school, college, university, or similar institution, except where the experience is required as part of the applicant's educational curriculum and the minimum qualifications require those courses of study and/or related academic degree.~~

~~(f) (g) If an applicant's position in state service has been reclassified, credit for time in the new class may be given from the date the reclassification was officially approved, even though the actual appointment did not occur until a later date.~~

~~(g) (h) In counting months of experience where the applicant indicates a beginning and ending month and year, but not a beginning and ending day, the beginning of the month through the end of the month that precedes the ending month shall be credited (e.g., January 2016 to July 2016 is counted as January 1, 2016 to June 30, 2016.)~~

~~(h) No experience credit shall accrue for time an applicant spent on an unpaid leave of absence. For purposes of this section, an unpaid leave of absence does not include vacation, sick leave, or equivalent earned time off.~~

If the competitor appeals the elimination and the Board grants that appeal, the competitor's rating shall be the alternate rating. The alternate rating assigned under the provisions of this section is confidential and may not be revealed to the competitor or the Board until the Board grants an appeal and orders that the alternate rating be used.

~~The weights assigned to the various parts of an examination represent the relative value of each part in the whole examination. The method of obtaining the average percentage of the examination is as follows: Multiply the rating obtained in each part by the relative weight of that part, add the products, and divide the sum of the products by the sum of the relative weights. The quotient thus obtained will be the average percentage for the examination. For the purpose of establishing employment lists, this average percentage shall be: (1) rounded to the second decimal place for examinations in which certification from the resulting employment list will be on the basis of the three highest names under Government Code section 19057; or (2) rounded to the nearest whole number for examinations in which certification from the resulting employment list will be on the basis of the three highest ranks under Government Code sections 19057.1, 19057.2 and 19057.3.~~
